Nuvimedix® Database Server

Contains:
Cloud-based, ORACLE
on Solaris for perfor-
mance, reliability and
efficiency.

Secure encryption EHR
data transmission- up to
AES-256bit, FIPS 197.

Robust server hardware
architecture.

Data security on mirrored
pairs of disks.

Optional off-premise,
continuous backup or
local backup storage
devices are available.

Flexible expansion by
simply adding storage
devices.

Complete, unalterable
audit trail of all activities.

Point of Care Routine Multi-Chemistry and Electrolyte Blood Analyzer

Piccolo Xpress® Chemistry Analyzer

Routine multi-chemistry
panels for Point of Care
(POC) testing, with
results in less than 15
minutes.

Three quick steps:

- 0.1cc of whole blood,
serum or plasma
collected and
transferred to a reagent
disc

- QR code scanned;
disc placed in analyzer
drawer

- Automated diagnostic
results available for im-
mediate follow-up with
patient.

Test results automati-
cally transferred to
360PLUS database to
facilitate continuum of
care follow-up.

Self-calibrated discs;
integrated quality
control checks.

CLIA-waived Panels:

- Comprehensive
Metabolic Panel
- Basic Metabolic Panel
- Lipid Panel
- Lipid Panel Plus
- Liver Panel Plus
- Electrolyte Panel
- General Chemistry 13
- General Chemistry 6
- Renal Function Panel
- MetLyte 8
- Kidney Check

Other Available Panels:

- Hepatic Function
Panel
- Basic Metabolic
Panel Plus
- MetLyte Plus CRP
- Biochemistry
Panel Plus
- MetLyte 12

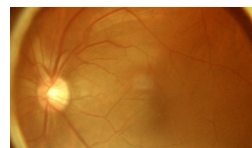

Digital Non-Mydriatic Fundus Lens

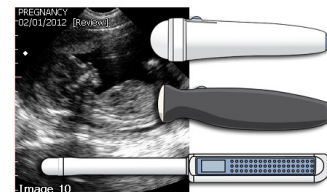

Avoids unnecessary
mydriatic medications
and side effects.
Images are taken, and
processed digitally and
stored in the **360PLUS**
database.

Spec & Features:

- Dimensions:
16 x 9 x 20 cm.
- Weight 400g.
- Camera Display
3.5"full color TFT-LCD.
- Camera Resolution:
Full HD 1920 x 1080
pixels.
- Field of view: 40°.
- Diopter Compensation:
-20D to +20D.
- Light source: Infrared
and white LED.
- FDA 510k / CE certi-
fied Class-II Medical
Device

Point-of-Care Hand-Held Ultrasound

Outstanding Image Quality
Fully digital B mode;
256 shades gray scale.
Real-time, 12 frames per
second.
Auto Scan mode.

Transducers:

- Abdominal Imaging
24 cm scan depth, 2.5 -
5.0 MHz scan frequency
General Purpose – Liver,
Kidney, Aorta, Heart
OB GYN – IUP, Position,
Date, IUD position
Urology – Bladder, PVR,
POUR

- General Purpose Imaging
15 cm scan depth, 3.5 -
12 MHz scan frequency
Cardiac – Pericardial
effusion, pump / volume
Abdominal Aorta, Inferior
Vena Cava
Liver, Kidney, Gall Bladder
Lung – Pleural effusion

- Transvaginal Imaging
5 cm scan depth, 5 - 12
MHz scan frequency
Valoration – Cervix,
Ovaries,
Douglas Pouch – Free
Fluid
Cyst Presence – Volume
Ectopic Pregnancy
